

# TOP 10 CITED WORKPLACE SAFETY STANDARDS

*OSHA's Top Ten Violations  
for the Fiscal Year of 2025*

**SAFETY COMPLIANCE**  
& **SAFETY SOLUTIONS**

The U.S. Department of Labor reports indicate that workplace fatalities exceed 4,500 annually, while the number of job-related injuries climbs to about 3 million each year. Measures enforced under OSHA regulations are designed to deter these occurrences. The initial safety measure lies in efficient communication of potential dangers via suitable identification and the use of lockout devices, which is considered the foremost line of protection against such incidents.

## TOP 10 CITED WORKPLACE SAFETY STANDARDS:

1
